--------	------------	--

Summary: On August 6, 2004, Edward W. O'Neill, counsel to Paragon Communities (Paragon), had a telephone conversation with Peter Arth, advisor to Pres. Peevey. Following the telephone conversation, O'Neill forwarded to Peter Arth an electronic copy of Paragon's July 29, 2004 motion filed in this proceeding. O'Neill discussed issues related to the Motion of Paragon for Interim Decision granting Limited Exemption from Public Utilities Code Section 851 (Motion). O'Neill stated that the Commission has more information and analysis than required to approve the application. If the Commission is not able to promptly complete a final decision approving the application on the merits, O'Neill urged the Commission to promptly grant Paragon's Motion. O'Neill explained that this would permit the sale of eight lots that involve no legitimate issues in dispute and noted that the development of these lots would constitute in fill development that is categorically exempt from CEQA.

Also present were Julie Fitch, advisor to Pres. Written materials (attached to the notice) were used. Tomcala recommended that the Commission approve the Department of Water Resources (DWR) cost allocation settlement between PG&E, SCE and TURN (Settlement). Tomcala stated that the Settlement results in a fair allocation of the above market costs of DWR's contracts to SDG&E. Hoover stated that the 'costs follow contracts' approach used in the Settlement provides significant contract administration benefits. Huffman explained that the proposed decision upsets the balance between PG&E's and SCE's customers achieved by the Settlement. Florio stated the Settlement provides a fair allocation of above market costs to SDG&E's customers.

Also present were David Gamson and Peter Hanson, advisors to Cmmr. Brown, and Bill Blastic, Director, Electric Control Center, PG&E. Written material (copy attached to the notice) was used. Jacobson stated that PG&E recommends that the Commission adopt the reliability incentive mechanism agreed to by PG&E and CUE. Jacobson indicated that in the event that the Commission does not provide PG&E with the incremental revenues necessary to achieve the reliability benchmarks in the PG&E/CUE joint agreement, the benchmarks should be revised. Jacobson explained the importance of having a deadband large enough to account for performance variations due to weather. Blastic stated that reliability performance statistics are not comparable across utilities. Blastic compared and contrasted alternative incentive mechanisms.
